
Quest 1: Potions

Healing Modalities

Time: 3-5 hours | **Reward:** 111 \$ReGen + 1 RVoice

Deliverable:

A Showcasing my Potions video or article

The Story

The Potions Quest introduces us to the world of living fermented foods, medicinal preparations, and the microbiome. Our gut has neurons and is considered by many researchers to be a second brain. When we add living microbiology to our system, we are literally changing the information processing happening in all three of our minds: gut, heart, and head. That is why we call these potions - they have the ability to transform how we think, see, and relate to our world.

Step by Step

Step 1: Make Your Potion

Follow along with the video to make your potion!

Step 2: Select Your Potions

Select 1-3 potions you want to showcase.

Step 3: Document Your Practice

Create content showing how you prepared your potion.

Step 4: Share Your Creation

Explain the benefits and how others might incorporate these practices. Include any immediate effects or lessons.

Step 5: Submit Your Showcase

Upload your video or article to your social media and use your link to add to your proposal to our Game Space.

Tips

- Focus on what you actually practice, not just theory
- Include practical tips others can use
- Share both the process and the results
